

Detailed Analysis of School Performance in Cincinnati (2010-11)

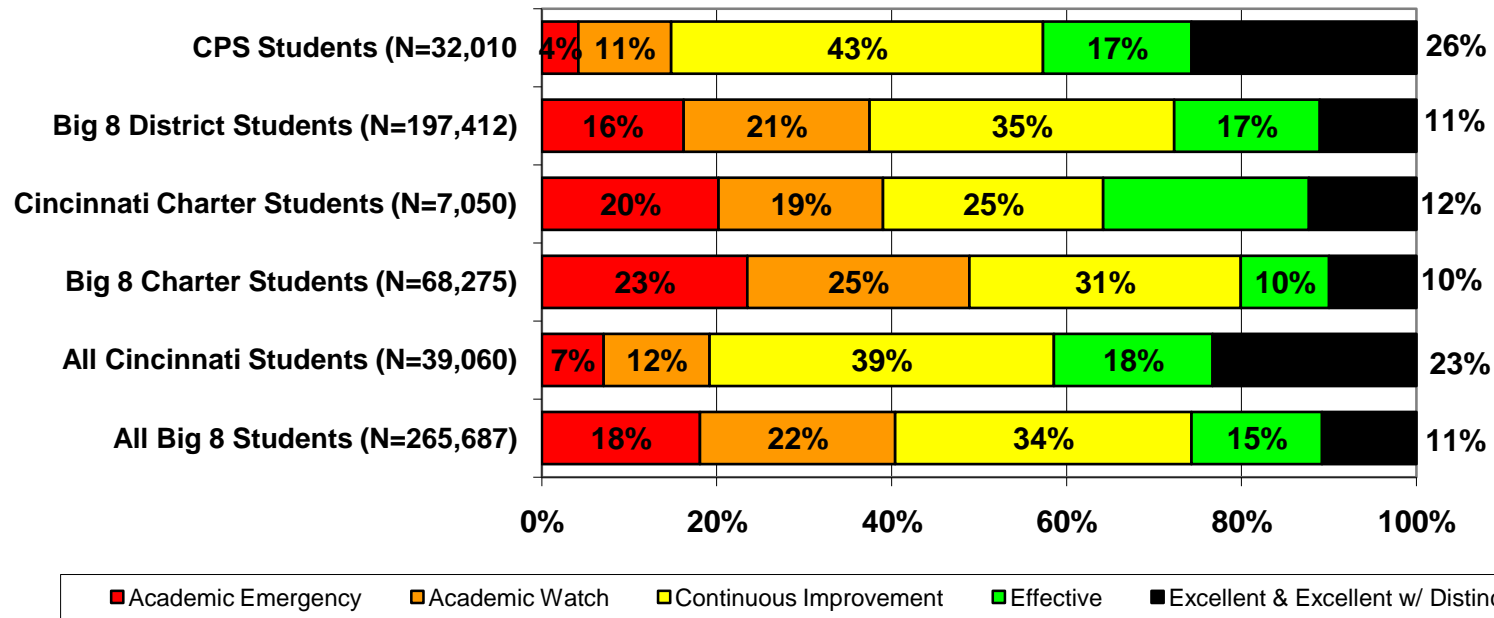

Graph I: Percent of Cincinnati Students in Public Schools by State Designation (2008-09, 2009-10, and 2010-11)

Source: Ohio Department of Education interactive Local Report Card

Note: This chart does not include students in schools that are unrated and students attending charter e-schools.

Graph II: Percent of Cincinnati Students in Public Schools by State Designation versus the Big 8 Average (2010-11)*

Source: Ohio Department of Education interactive Local Report Card

Note: This chart does not include students in schools that are unrated and students attending charter e-schools. Totals may not equal 100 due to rounding

* The Big 8 districts are defined as Ohio's largest urban districts: Akron, Canton, Cincinnati, Cleveland, Columbus, Dayton, Toledo, and Youngstown.

Graph III: Percent of Cincinnati Students in Public Schools by Value-added Composite Score versus the Big 8 Average (2010-11)

Source: Ohio Department of Education interactive Local Report Card

Note: This chart does not include students in schools that did not receive a value-added composite score or students attending charter e-schools.

Table I: Cincinnati Public Schools (District and Charter) Ranked by Performance Index Score

The following pages list Cincinnati’s public charter and district schools ranked by Performance Index (PI) score[†] for the 2010-11 school year. Numerous other performance indicators are also included, but the Performance Index score was selected for ranking the

[†] The Performance Index score is calculated by multiplying the percentage of students that are untested, below basic/limited, basic, proficient, accelerated, or advanced by weights ranging from 0 for untested to 1.2 for advanced students. The totals are then summed up to obtain the school or district’s PI score. PI scores range from 0 to 120, and the state has set the goal for all schools to achieve a PI score of 100 or better. For a complete description of how the Ohio Department of Education calculates the PI score see their website here:

<http://www.ode.state.oh.us/GD/DocumentManagement/DocumentDownload.aspx?DocumentID=29878>

schools because it provides an overall indication of how well students perform on all tested subjects in grades 3 through 8 and the Ohio Graduation Test.

We strongly encourage readers to look closely at the number of standards met and the number of standards possible. A school with a large number of possible standards and possible standards met has gotten a large percentage of students to the state proficiency goals.

We also encourage readers to consider schools' value-added results. Where the Performance Index reflects student achievement at one point in time, value-added tells us how a school is doing at helping its students make progress from year to year. For more on value-added, see Fordham's value-added primer on our website:

http://www.edexcellencemedia.net/publications/2008/200808_ohiovalueaddedprimer/Ohio_Value_Added_Primer_FINAL_small.pdf

Table I: Cincinnati Public Schools (District and Charter) Ranked by Performance Index Score (2010-11)

Rank	Building Name	Type	PI Score 10-11	PI Score 09-10	Designation 10-11	Overall AYP 10-11	# of standards met 10-11	# of standards possible 10-11	Value-added Composite 10-11	Enrollment	Grade Span
