Note: This chart does not include students in schools that did not receive a value-added composite score or students attending charter e-schools.

Table I: Columbus Public Schools (District and Charter) Ranked by Performance Index Score
The following pages list Columbus' public charter and district schools ranked by Performance Index (PI) score[†] for the 2010-11 school year. Numerous other performance indicators are also included, but the Performance Index score was selected for ranking the schools because it provides an overall indication of how well students perform on all tested subjects in grades 3 through 8 and the Ohio Graduation Test.

We strongly encourage readers to look closely at the number of standards met and the number of standards possible. A school with a large number of possible standards and possible standards met has gotten a large percentage of students to the state proficiency goals.

We also encourage readers to consider schools' value-added results. Where the Performance Index reflects student achievement at one point in time, value-added tells us how a school is doing at helping its students make progress from year to year. For more on value-added, see Fordham's value-added primer on our website:

http://www.edexcellencemedia.net/publications/2008/200808_ohiovalueaddedprimer/Ohio_Value_Added_Primer_FINAL_small.pdf.

[†] The Performance Index score is calculated by multiplying the percentage of students that are untested, below basic/limited, basic, proficient, accelerated, or advanced by weights ranging from 0 for untested to 1.2 for advanced students. The totals are then summed up to obtain the school or district's PI score. PI scores range from 0 to 120, and the state has set the goal for all schools to achieve a PI score of 100 or better. For a complete description of how the Ohio Department of Education calculates the PI score see their website here:
http://www.ode.state.oh.us/GD/DocumentManagement/DocumentDownload.aspx?DocumentID=29878.

Table I: Columbus Public Schools (District and Charter) Ranked by Performance Index Score (2010-11)

Rank	Building Name	Type	PI Score 10-11	PI Score 09-10	Designation 10-11	Overall AYP 10-11	# of standards met 10-11	# of standards possible 10-11	Value-added Composite 10-11	Enrollment	Grade Span

Notes: 1) Rankings are based on Performance Index score for the 2010-11 school year. 2) Schools without a Performance Index score were removed.

* These schools were tied for the same ranking number.
