# Achievement

At Columbus Collegiate Academy - West (CCAW) we measure proficiency longitudinally in terms of annual progress on Ohio State Tests (AIR) and interim progress during the school year on the i-Ready assessment in reading and math.

## State Testing (AIR)

CCAW administered the Ohio State Tests (AIR) for the second time during the 2016-2017 school year. This was the first school year that the test was taken online. In previous years the PARCC (2014-2015) and OAA (2012-2013) state tests were administered. The State AIR tests are administered annually in order to measure student proficiency on state mandated academic standards for each grade level. The State AIR tests allow CCAW to compare their results with traditional Columbus City Schools (CCS) as well as schools across Ohio.

## District and State Comparison

The AIR tests were administered in the Spring of 2017. Columbus Collegiate Academy - West students outperformed the CCS average in all tested subjects except 7th grade reading. CCAW 8th graders scored proficient at a rate nearly 15% high in Reading, almost 20% higher in Math, and 9% higher in Science.

## Comparison with similar schools

In order to consider our academic progress in context, CCAW evaluated its rank by performance index compared to the Columbus and Southwestern district schools students could attend if not enrolled at CCAW.

## i-Ready

CCAW students take the i-Ready diagnostic assessment in the fall, winter, and spring each school year. The i-Ready assessments are state-aligned, computer-adaptive tests that accurately reflect the instructional level of each student and measure growth over time.

The assessment itself is unique in that it adapts to the student's ability, accurately measuring what a child knows and needs to learn. The diagnostic assessment pinpoints students' needs in reading and math down to the domain and sub-skill level by using sophisticated adaptive logic, and a bank of thousands of test items. Millions of test records have been collected over the last several years which allows us to compare our students' scores and growth with those of 6th, 7th, and 8th graders across the United States.
