

Detailed Analysis of Student Achievement in Cleveland (2006-07)

Percent of Cleveland Students in Public Schools by State Academic Rating Category

Source: Ohio Department of Education Website

Note: This chart does not include students in schools that are unrated and students attending charter e-schools.

Cleveland Public Schools (District and Charter) Ranked by Performance Index Score

The Thomas B. Fordham Institute has ranked Cleveland's charter and district schools by performance index (PI) score for the 2006-07 school year. Numerous other performance indicators are also included, but the performance index score was selected for ranking the school because it provides an overall indication of how well students perform on all tested subjects in grades 3-8 and the OGT. It is calculated by multiplying the percentage of students that are untested, below basic/limited, basic, proficient, accelerated or advanced by weights ranging from 0 for untested to 1.2 for advanced students. The totals are then summed up to obtain the school or districts PI score. PI scores range from 0 to 120. For a complete description of how the Ohio Department of Education calculated the PI score link to their website here:

<http://www.ode.state.oh.us/GD/Templates/Pages/ODE/ODEDetail.aspx?Page=3&TopicRelationID=1266&Content=31774>

Note: We strongly encourage readers to look closely at the number of standards met and the number of standards possible. A school with a large number of possible standards and possible standards met has gotten a large percentage of students to the state proficiency goals.
