

## Detailed Analysis of School Performance in Cleveland (2008-09)

**Graph I: Percent of Cleveland Students in Public Schools by State Designation  
(2006-07, 2007-08, and 2008-09)**

Source: Ohio Department of Education interactive Local Report Card

Note: This chart does not include students in schools that are unrated and students attending charter e-schools.

### **Percent of Cleveland Students in Public Schools (District and Charter) by State Designation.**

Graph I shows the percent of Cleveland students in district and charter schools by state designation for the 2006-07, 2007-08, and 2008-09 school years.

The percent of Cleveland students (district and charter) attending schools rated “D” or “F” by the state fell only slightly in 2008-09. Nearly three-quarters (70 percent) of all Cleveland students were in a school rated Academic Emergency or Academic Watch. This is in contrast to 74 percent in the 2007-08 school year. Cleveland charter school students were significantly more likely to attend a school rated Effective or Excellent (including Excellent with Distinction) than their district counterparts. One in five charter school students went to an “A” or “B” rated school, versus 7 percent of Cleveland Metropolitan School District students.

**Graph II: Percent of Cleveland Students in Public Schools by State Designation  
versus the Big 8 Average\***

**Percent of Cleveland Students in Public Schools by State Designation versus the Big 8 Average.** Graph II shows how Cleveland district and charter school students performed against the Big 8 averages for district and charter performance. This helps to put the performance of students in Cleveland into a larger context (e.g., how do they perform against other urban students in Ohio?)

Cleveland Metropolitan School District students were more likely to attend a school rated “D” or “F” by the state, as compared to their Big 8 District peers. Nearly three in four (71 percent) of Cleveland Metropolitan School District students went to a school in Academic Emergency or Academic Watch, while just under one half (47 percent) of Big 8 District students went to similar schools. Charter school students in Cleveland are more likely than both their district peers and Big 8 charter school peers to attend a school that is Effective or Excellent (including Excellent with Distinction). One in five charter students in Cleveland attend a school ranked “A” or “B,” compared to 8 percent of charter students in the Big 8 districts, and only 7 percent of Cleveland Metropolitan School District students.

\* The Big 8 districts are defined as Ohio’s largest urban districts: Akron, Canton, Cincinnati, Cleveland, Columbus, Dayton, Toledo, and Youngstown.

**Graph III: Percent of Cleveland Students in Public Schools by Value-added Composite Score versus the Big 8 Average (2008-09)**

Source: Ohio Department of Education interactive Local Report Card

Note: This chart does not include students in schools that did not receive a value-added composite score or students attending charter e-schools.

**Percent of Cleveland Students in Public Schools by Value-added Composite Score versus the Big 8 Average.** Ohio’s local report cards include each school’s “value-added”—how much progress students in grades four through eight made in reading and math over the course of one year compared to how much the state expected them to gain (for a detailed explanation go to: [http://www.edexcellence.net/detail/news.cfm?news\\_id=735&id=130](http://www.edexcellence.net/detail/news.cfm?news_id=735&id=130)). Using this information Ohio determines if each school made “Above Expected Growth,” “Expected Growth,” or “Below Expected Growth.”

Students in public schools in Cleveland (district and charter) are less likely than their Big 8 peers to attend a school that failed to meet the state’s growth expectations (11 percent of Cleveland students versus 18 percent of Big 8 students). More than 90 percent of students in Cleveland Metropolitan School District attend a school that achieved at least one year of academic growth last year, outpacing the Big 8 districts (at 83 percent) and Cleveland charter schools (at 80 percent).

***Table I: Cleveland Public Schools (District and Charter) Ranked by Performance Index Score***

The following pages list Cleveland's public charter and district schools ranked by Performance Index (PI) score<sup>†</sup> for the 2008-09 school year. Numerous other performance indicators are also included, but the Performance Index score was selected for ranking the schools because it provides an overall indication of how well students perform on all tested subjects in grades 3 through 8 and the Ohio Graduation Test.

We strongly encourage readers to look closely at the number of standards met and the number of standards possible. A school with a large number of possible standards and possible standards met has gotten a large percentage of students to the state proficiency goals.

We also encourage readers to consider schools' value-added results. Where the Performance Index reflects student achievement at one point in time, value-added tells us how a school is doing at helping its students make progress from year to year. For more on value-added, see Fordham's value-added primer on our website:

[http://www.edexcellence.net/detail/news.cfm?news\\_id=735&id=130](http://www.edexcellence.net/detail/news.cfm?news_id=735&id=130).

---

<sup>†</sup> The Performance Index score is calculated by multiplying the percentage of students that are untested, below basic/limited, basic, proficient, accelerated, or advanced by weights ranging from 0 for untested to 1.2 for advanced students. The totals are then summed up to obtain the school or district's PI score. PI scores range from 0 to 120, and the state has set the goal for all schools to achieve a PI score of 100 or better. For a complete description of how the Ohio Department of Education calculates the PI score see their website here: <http://www.ode.state.oh.us/GD/DocumentManagement/DocumentDownload.aspx?DocumentID=29878>.

**Table I: Cleveland Public Schools (District and Charter) Ranked by Performance Index Score**

| Rank | Building Name                                                | Type     | PI Score 08-09 | PI Score 07-08 | Designation 08-09 | Overall AYP 08-09 | # of standards met 08-09 | # of standards possible 08-09 | Value-added Composite 08-09 | Enrollment | Grade Span |
